

TECHNICAL DATA SHEET

PRODUCT NAME	LDF BLUE 5044
---------------------	----------------------

COMPOSITION

Concentrated dispersion of pigments in polyol compatible carrier. The carrier resin in the dispersion combines chemically with polyurethane during polymerization and curing.

APPLICATION

The dosage is 0.5% to 06 % on the polyol depending on the application.

CHEMICAL AND PHYSICAL PROPERTIES, (typical values)

Viscosity	<8500 CPS \pm 2000
Colour strength internal method	90 \pm 10%
Colour shade internal method	As per standard
Hiding power (g/m ²)	As per standard
Fineness (Micron)	\leq 30 m
Packaging Kg.	30

Shelf life: 12 months in original containers

Storage: Store between 5 to 40°C

Recommendations:

1. KEEP AWAY FROM FREEZING.
2. STIR WELL THE PRODUCT BEFORE USE.
